FEATURES & BENEFITS

PRE-DESIGNED

Lafarge offers Standard Products as a timely on-hand solution for many onsite needs. As such, Standard Products are pre-designed in a standardized approach to save time and money. Reference our catalogue for all of our market offerings.

READILY AVAILABLE

Standard Products are designed and fabricated to be your on-hand solution for site precast needs. Our team forecasts and stocks products to be as readily available as possible and we will work towards all of your quantity and schedule needs.

QUALITY & TRACEABILITY

Lafarge Precast is fully CPCQA certified facility and all precast is fabricated to these standards – including our Standard Product offerings. Full product traceability and construction are available for every purchase upon request.

CUSTOMIZATION

Minor customizations are possible within some our standard products line. Please reach out to our expert Sales team and they will let you know if we can accommodate.
